

**SMALL SCALE SUMTER COUNTY COMPREHENSIVE PLAN AMENDMENT
APPLICATION**

DATE: December 30, 2009

CASE NUMBER: SS2009-0007

APPLICANT: Lisa Pannell & James Lopez

LEGAL DESCRIPTION:

Section 30, Township 18S, Range 23E; Begin 50' W and 420' S of NE corner of SE ¼ for Point of Beginning; Run W 420'; Run S 210'; Run E 420'; Run N 210' to Point of Beginning; Less US 301 ROW.

ELEMENTS: Future Land Use Map and Future Land Use Element

PROPOSED CHANGE:

| <u>Current Future Land Use Designation</u> | <u>Acres</u> | <u>Proposed Future Land Use Designation</u> |
|--|--------------|---|
| Rural Residential | 1.98 acres | Commercial |

GENERAL DESCRIPTION AND BACKGROUND

This application requests a Small Scale Future Land Use amendment from Rural Residential (1 dwelling unit/acre) to Commercial. The application consists of one parcel encompassing approximately 1.98 acres within the Wildwood area of unincorporated Sumter County. The subject property is located on the west side of US 301, approximately 0.4 miles north of C-462. The subject property has not been the subject of a future land use amendment within the past year. See Map 1 for project location and adjacent uses.

SURROUNDING LAND USE AND ZONING

The properties to the north, south, and west of the subject property have a Future Land Use of Rural Residential. However, the parcel immediately to the south, along US 301, has a vested commercial zoning and use. To the south of the vested commercial zoning, the City of Wildwood has property with a commercial land use classification. The properties to the east of the subject property have a Future Land Use of Industrial. Properties within the City of Wildwood, to the east of the subject property, have a industrial land use classification. Given the proximity of commercial and industrial land uses to the subject property, the change of the subject property to Commercial is consistent with the current and anticipated land use pattern of the area.

The subject property is located within the joint planning area with the City of Wildwood. The proposed Commercial Future Land Use of the subject property is consistent with the conceptual land use pattern approved through the adoption of the Interlocal Service Boundary Agreement with the City of Wildwood.

LAND USE SUITABILITY

Urban Sprawl

The subject property is located in an area that is proximate to the existing boundaries of the City of Wildwood. The existing land use pattern in the surrounding area includes a mix of residential, commercial, and industrial land uses.

Environmental Resources

The subject property is currently developed with a single-family home. The subject property contains no wetlands but is located within the 100-year floodplain (western half of subject property). The presence of 100-year flood-plain does not preclude commercial development of the subject property. However, any construction activities that impact the 100-year floodplain will require appropriate mitigation and compensation. The subject property is not within an Area of Environmental Concern as identified on Map VII-15 of the Sumter County Comprehensive Plan.

Historic Resources

No historic resources will be impacted by this application. This location does not appear on the Master Site File of Historic Resources in the Sumter County Comprehensive Plan.

Population and Housing

The proposed amendment to Commercial will decrease the potential number of dwelling units from 1 to 0 and population from 2 to 0 for the subject property:

CONCURRENCY ANALYSIS

This proposed amendment to the Sumter County Comprehensive Plan will have no affect on water distribution and wastewater treatment capacities. The property will be served by private well and septic. However, the City of Wildwood plans on providing water and sewer service to this area. At the time of the extension and availability of water and sewer to the subject property, the subject property will be required to connect to the water and sewer services.

There is no impact anticipated with the proposed amendment in level of service (LOS) for recreation.

The subject property is accessed via a major arterial US 301. US 301 is currently a two-lane facility at this location. However, this segment of US 301 is committed to be four-laned through an executed agreement between the Florida Department of Transportation and the Villages of Lake-Sumter, Inc. Consequently, the LOS analysis assumes US 301 to be four-laned. The anticipated increase in trip generation from the proposed amendment does not exceed the adopted LOS capacity for US 301.

| Roadway Segment | Pre-Amendment Traffic | | Post-Amendment Traffic | | Adopted LOS Capacities | | Meets LOS |
|-----------------|-----------------------|-------------------|------------------------|-------------------|------------------------|--------------------|-----------|
| | Daily Traffic | Peak Hour Traffic | Daily Traffic | Peak Hour Traffic | Daily Capacity | Peak Hour Capacity | |
| US 301 | 16,600 | 1,594 | 17,449 | 1,668 | 33,200 | 3,290 | Yes |

Pre-Amendment Traffic from FDOT 2008 Traffic Count and Adopted LOS Capacities from Sumter County Concurrency Management System
US 301 Analyzed as LOS D

INTERNAL CONSISTENCY

This proposed amendment will require amendments to the Sumter County Comprehensive Plan's Future Land Use Map of the Future Land Use Element.

Future Land Use Element

The proposed changes to the Future Land Use Element would reflect changes in the allocated inventory for Rural Residential lands, which would decrease by 1.98 acres MOL, and increase the allocated inventory of Commercial lands by 1.98 acres MOL.

Future Land Use Map

The proposed changes in the Future Land Use Map will change the designation of the subject property from Rural Residential to Commercial. Map 2 shows the change on the Future Land Use Map.

PROPOSED AMENDMENT TO THE TEXT OF THE COMPREHENSIVE PLAN

This proposed amendment does not affect the text of the Comprehensive Plan.

PROPOSED AMENDMENT TO THE CAPITAL IMPROVEMENTS PLAN

This proposed amendment does not affect the Capital Improvements program as outlined in the Sumter County Comprehensive Plan.

**BOARD OF SUMTER COUNTY COMMISSIONERS
PLANNING & DEVELOPMENT**

ACKNOWLEDGMENT AND ACCEPTANCE OF HAZARDS OF PROPERTY WITHIN THE 100 YEAR FLOOD ZONE

Sumter County requires flood protection measures in areas determined by scientific and engineering considerations to be within the 100 year floodplain. The degree of flood protection required and the methods used to determine the 100 year floodplain is considered reasonable for regulatory purposes. Larger floods and floods in areas not previously identified can occur on rare occasions. Flooding situations may also be increased by man-made or natural causes. Consequently compliance with the regulations imposed by Sumter County for uses within the 100 year floodplain do not imply that such uses will be entirely free from flooding or flood damage or that areas outside the identified floodplain and floodway overlay zones will not be flooded on occasion. Therefore these regulations shall not create liability on the part of Sumter County or any officer or employee thereof for any flood damages that result from reliance on these regulations or any administrative decision lawfully made hence forth.

I (we), LISA CAYE / JAMES B. PANNELL / LOPEZ, being owners of a parcel described as:
Parcel Number: D30=019 Section Township Range: 301823
Legal Description: BEG 50 FT W & 420 FT S OF NE COR OF SE1/4 FOR POB RUN W 420 FT S 210 FT E 420 FT N 210 FT TO BEG LESS HWY 301 R/W

do hereby acknowledge that Sumter County has informed me that the above described parcel is fully or partially within the 100 year flood plain area (Zone A) as delineated on the Federal Emergency Management Agency (FEMA) Flood Insurance Rate Maps for Sumter County, Florida having an effective date of March 15, 1982. Panel # 120296 0075B. I (we) understand and acknowledge the consequences of building structures on this type of property, including but not limited to:

- a) If within flood zone A, the finished floor area must be at least one foot above the base (100 year) flood elevation at the site. This will require certification by a registered land surveyor. Nevertheless, the possibility of higher waters exists as described in the first paragraph of this document.
- b) Cumulative changes made to nearby properties since the FEMA map was published can increase flooding on the subject property.
- c) Flooding of the access road to the property may occur. This includes not only private roads, but those within the County maintained system as well.
- d) The driveway to the home itself may be subject to flooding, thereby eliminating or making access to the home difficult.
- e) The potential lack of access to the home can hinder emergency vehicles in reaching the property.
- f) Damage or malfunctioning of a septic tank can occur if flood water stands on site for a period of time.
- g) Contamination of the potable water supply can occur if flood water stands on site for a period of time.

I (we) understand and accept the consequences of establishing a structure within the 100 year flood plain.

Lisa Pannell
